

# t19

A module of tevixAccuPAS for **COVID-19 pre-claim HRSA** submissions using customizable insurance discovery system.

## Our Approach:

- Our intelligent logic has the highest instance of finding active coverage
- Custom insurance discovery specific to the clients' needs and patient's region that helps meet and exceed the output results
- Extensive customizable insurance discovery, provides an audit trail to show proper due diligence for HRSA submissions and audits.

## The Results:

- Insurance found
- Insurance found but would not likely reimburse covid vaccine/testing (vision, dental, etc.)
- No payer found

*Note: We also identify mismatches, potential fraud*
