

The most advanced patient demographic & insurance verification solution.

Within seconds, and using only a name & zip, **teviXAccuPAS** automates locating the patient's verified real-time identity, address, benefit status and financial responsibility for their date of service.

teviXAccuPAS

teviXAccuPAS takes your data further with **DecisionPlus** by finding the most accurate data including member IDs and mapping eligible payers to your system's custom payer ID.

DecisionPlus Features:

- **Medicare Benefit Identification (MBI tool):** Reduce Medicare Rejections & Rework
- **Extended:** Our Extended feature helps **enhance your searches** with our verified patient information to help find:
 - Lightning Payer ID
 - Medicare Advantage Plans
 - HMOs & Secondary Payers
- **Payor Mapping:** Map teviXMD eligible payers for patients to your order entry payer ID for claims submission

Beyond the Verification 3.0 ability of teviXAccuPAS, additional Service Modules are included to improve workflow.
